

Development Report

by Angie LeClair, Director of Development

Our Associate Members continue to be an important part of our organization. They support us financially and provide us with knowledgeable services.

Definition

An Associate Member is a profit or non-profit business entity that offer products or services to POC Regular Members. An Associate Member is primarily engaged in the manufacturing, distribution and/or sale of organizing-industry related equipment, supplies, services, and/or educational training directed to Professional Organizers or their clients.

A business entity that offers professional organizing services cannot be an Associate Member unless it also offers products or services consistent with the definition of an Associate Member above.

An individual who also operates a business entity may join POC as both a Regular Member (the individual) and as an Associate Member (the business entity) as long as the criteria for each type of membership are met.

Highlights

We currently have 15 Associate Members. Over the course of 2019, we had 2 new Associate Members join our organization and 13 renew their membership.

We continue to encourage our members to reach out to our Associate Members.
